ELSEVIER

European Journal of Operational Research 136 (2002) 707–709

EUROPEAN JOURNAL OF OPERATIONAL RESEARCH

www.elsevier.com/locate/dsw

Contents Volume 136

1 A review of the contribution of Operational Research to Project Management
L.V. Tavares

19 DEA models for resource reallocation and production input/output estimation
H. Yan, Q. Wei and G. Hao

32 Dual models of interval DEA and its extension to interval data
T. Entani, Y. Maeda and H. Tanaka

46 A minimax resource allocation problem with variable resources
E.G. Gol'stejn and S. Dempe

57 An exact algorithm for the subset sum problem
N.Y. Soma and P. Toth

67 A fractional model for locating semi-desirable facilities on networks
E. Carrizosa and E. Conde

81 A framework for constructing general integer problems with well-determined duality gaps
A. Joseph and S.I. Gass

95 Fabrication scheduling on a single machine with due date constraints
B.M.T. Lin

106 Buying and selling an asset over the finite time horizon: A non-parametric approach
Y.H. Chun, R.D. Plante and H. Schneider

121 Minimizing the bias and variance of the gradient estimate in RSM simulation studies
M.H. Safizadeh

136 A general system theory approach to rail freight car fleet sizing
N.J. Bojović

173 The impact of delivery lags on irreversible investment under uncertainty
L.H.R. Alvarez and J. Keppo

181 Rough sets, decision algorithms and Bayes' theorem
Z. Pawlak

190 Differentiating between good credits and bad credits using neuro-fuzzy systems
R. Malhotra and D.K. Malhotra

212 Rule extraction from expert heuristics: A comparative study of rough sets with neural networks and ID3
B. Mak and T. Munakata

231 Editorial: Human centered processes
P. Lenca

233 Human centered processes and decision support systems
J.P. Barthélemy, R. Bisdorff and G. Coppin

253 Performance-based assessment of expertise: How to decide if someone is an expert or not
J. Shanteau, D.J. Weiss, R.P. Thomas and J.C. Pounds

264 Post-decision inference editing of supportive and counterindicative signals among external auditors in a going concern judgment
C.G. Lundberg and B.M. Nagle
282 Applying decision tree methodology for rules extraction under cognitive constraints
W. Müller and E. Wiederhold
290 Reasoning with contextual graphs
P. Brézillon, L. Pasquier and J.-C. Pomerol
299 Dynamic adaptation of rules bases under cognitive constraints
E. Le Saux, P. Lenca and P. Picouet
310 Socio-cognitive engineering: A methodology for the design of human-centered technology
M. Sharples, N. Jeffery, J.B.H. du Boulay, D. Teather, B. Teather and G.H. du Boulay
324 Model building for air-traffic controllers' workload regulation
I. Crévits, S. Debernard and P. Denecker
333 A structured groupware for a collective decision-making aid
M. Lewkowicz and M. Zacklad
340 Ethics and decision
J.P. Brans
353 Using commonality as backup safety stock
M.S. Hillier
366 The plant location and flexible technology acquisition problem
V. Verter and A. Dasci
383 Task net: Transactional workflow model based on colored Petri net
I. Choi, C. Park and C. Lee
403 Fund allocation model for pipe repair maintenance in water distribution networks
H.T. Luong and O. Fujiwara
422 Meta-goal programming
M.V. Rodríguez Uría, R. Caballero, F. Ruiz and C. Romero
430 Modelling a multi-objective allocation problem in a government sponsored entrepreneur development programme
S. Yahya and B. Kingsman
449 On the statistical foundations of non-linear utility theory: The case of status quo-dependent preferences
G. Geiger
466 "Small sample properties of ML, COLS and DEA estimators of frontier models in the presence of heteroscedasticity"
by A.N. Bojanic, S.B. Caudill and J.M. Ford, *European Journal of Operational Research* 108, 1998, 140–148: A comment
R.D. Banker, H.S. Chang and W.W. Cooper
468 Small sample properties of ML, COLS and DEA estimators of frontier models in the presence of heteroscedasticity: A reply to Banker, Chang, and Cooper
A.N. Bojanic, S.B. Caudill and J.M. Ford
471 Success or failure of a firm under different financing policies: A dynamic stochastic model
M.D. Cifarelli, D. Masciandaro, L. Peccati, S. Salsa and A. Tagliani
483 Circular-arc graph coloring: On chords and circuits in the meeting graph
D. de Werra, C. Eisenbeis, S. Lelait and E. Stöhr
501 Airline cockpit crew scheduling
S. Yan and J.-C. Chang
512 Parallel machine scheduling with a common due window
Z.-L. Chen and C.-Y. Lee

528 Two-machine flow shops with limited machine availability
W. Kubiak, J. Błażewicz, P. Formanowicz, J. Breit and G. Schmidt
541 The computational complexity of the criticality problems in a network with interval activity times
S. Chanas and P. Zieliski
551 Workforce planning in synchronous production systems
G.L. Vairaktarakis, X. Cai and C.-Y. Lee
573 Screening location strategies to reduce exchange rate risk
T.J. Lowe, R.E. Wendell and G. Hu
591 Research joint ventures: A cooperative game for competitors
J.A. Aloysius
603 A comparative study of the effect of the position of outliers on classical and nontraditional approaches to the two-group classification problem
R. Pavur
616 On the convexity of games corresponding to sequencing situations with due dates
P. Borm, G. Fiestras-Janeiro, H. Hamers, E. Sánchez and M. Voorneveld
635 Balancedness of infrastructure cost games
H. Norde, V. Fragnelli, I. García-Jurado, F. Patrone and S. Tijs
655 Quality adjusted measures of services in public schools
A. Heshmati
671 Hyperbolic efficiency and return to the dollar
R. Färe, S. Grosskopf and O. Zaim
680 Sizing the US destroyer fleet
M. Crary, L.K. Nozick and L.R. Whitaker
696 Real (investment) options with multiple sources of rare events
S.H. Martzoukos and L. Trigeorgis
707 Contents Volume 136
